

# CYBER SUMMIT

**SNAPSHOT**

POTOMAC OFFICERS CLUB

# BACKGROUND

As the digital age continues to unfold, the cyber domain has become increasingly important in the federal realm. With data and information playing a larger role in the public sector operations than ever before, the U.S. government has instituted new standards to ensure that all are able to access the benefits and tackle the challenges of the emerging domain.

# CONTRACT OPPORTUNITIES

The **Air Force Research Laboratory** has issued an advanced research announcement regarding the **\$808.5 million** Trusted and Elastic Military Platforms and Electronic Warfare System Technologies contract, which is intended to explore new methods to patch cyber vulnerabilities in avionics systems and develop modern technologies.

The **Department of Commerce** has released a presolicitation for the **\$125 million** NIST Cybersecurity and Privacy Support Services contract to provide cybersecurity and privacy expertise to support the creation of standards, guidelines and research documents for the National Institute of Standards and Technology.

The **Air Force Research Laboratory** has issued an open broad agency announcement for the **\$92.9 million** Enabling Cyber-Linked Physical Sensing Exploitation contract, under which the potential awardee will conduct research and analysis on the relationship between cyber-connected devices and various physical environments.

# NETWORKING OPPORTUNITIES

60+ COMPANIES ARE CURRENTLY REGISTERED TO ATTEND THE SUMMIT.
