

2023
AIR FORCE
S U M M I T
SNAPSHOT

POTOMAC OFFICERS CLUB

Background

To shape the future of the Department of the Air Force, Secretary Frank Kendall released his Seven Operational Imperatives, a set of “critical operational capabilities and functions” the department must prioritize. These target areas include space order of battle, operationally focused advanced battle management systems, moving target engagement, tactical air dominance, resilient basing, global strike and readiness to deploy and fight.

Networking Opportunities

80+ companies will be attending the event

Of registered attendees...

100%
are director-level
or above

26%
are business
development leaders

19%
are C-Suite
executives

14%

Contract Opportunities

The **Air Force Materiel Command** recently released a request for information for a **\$15 billion** Comprehensive Construction & Engineering contract to provide a variety of construction services, including DOD Fuels infrastructure, range construction, airfield and non-airfield pavements and facilities upgrades.

The **Space Force** recently issued a request for proposals for its **\$4 billion** Space Force Range Contract, under which the awardee will work to expand the reach of the Assured Access to Space program executive office by providing flexible operations, maintenance, sustainment, systems engineering and integration for technology improvements.

The **Air Force Research Laboratory** recently issued an advanced research announcement for the **\$808.5 million** Trusted and Elastic Military Platforms and Electronic Warfare System Technologies contract, under which the awardee will develop methodologies and capabilities to patch vulnerabilities in avionics systems and experiment with new related ideas.
